SUPERPOWERS for TECHNICIANS

Vital is revolutionizing Augmented Reality. We give superpowers to technicians and engineers worldwide by making the workspace virtual and enabling colleagues in different countries to work side by side.

Vital is the only Augmented Reality software that is subscription based. Vital software is compatible with any smart device to make this cutting-edge technology affordable and accessible for SMBs to Fortune 500s.

AUGMENTED REALITY in the ENTERPRISE

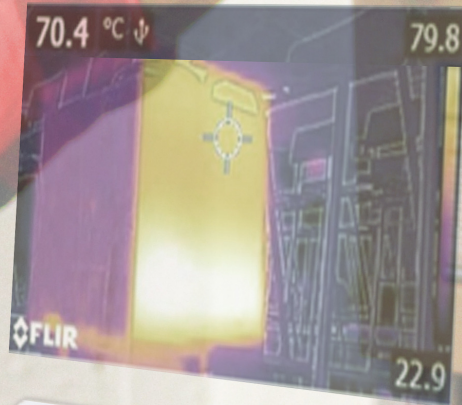

By 2025, 14.4 million US workers will be wearing smart glasses in the workplace - that's 8% of the American Workforce

Over 3.5 million manufacturing jobs will need to be filled in the next decade but because of the lack of skilled workers, 2 million of those jobs will remain unfilled

AR for the professional hands-on workforce is estimated to become a \$49 billion market by 2021
